

# MAESTRO II

## TECHNICAL SPECIFICATIONS

---

## ACOUSTICAL SPECIFICATIONS

---

Amplitude linearity ( $\pm$ 3dB)	32 - 350 Hz
Operating frequency range (- 6dB)	29 - 350 Hz
Cut off frequencies (- 10dB)	26 - 350 Hz
Number of ways	1
Sensitivity	112 dB
Maximum SPL (*)	147 dB (*) Peak level at 1-meter under free field conditions using 12 dB crest factor pink noise
Horizontal coverage	360°
Vertical coverage	360°

---

## TECHNICAL SPECIFICATIONS

---

Nominal impedance	4 $\Omega$
AES power handling	2 000 W
Program power handling	4 000 W
Peak power handling	5 600 W
Transducers (LF)	2 x 15" driver with neodymium magnet
Enclosure type	Folded Waveguide

---

## PHYSICAL SPECIFICATIONS

---

Height	53.14 in (1 350 mm)
Width	24.60 in (625 mm)
Depth	49.21 in (1 250 mm)
Weight	227.07 lbs (103 kg)
Connectors	2 x speakON NL4MP
Handles	10

---

## STANDARD COLOR CODES

---

Amadeus systems offer a standard 'Jet Black' finish, based on RAL 9005 color. The following codes allow you to select separately the colors associated with the different external elements that Amadeus systems are composed of.

REFERENCE / \*\*\*\* 1 / \*\*\*\* 2

\*\*\*\* 1 RAL COLOR CODES FOR CABINETS AND MECHANICAL ELEMENTS

\*\*\*\* 2 RAL COLOR CODE FOR AIRTEX<sup>®</sup> ACOUSTICAL FABRIC

For example, a two-color PMX 5 MKII system with 'Jet Black' cabinet (RAL 9005) and 'White Aluminium' Airtex<sup>®</sup> fabric in front of the protection grid (RAL 9006) gets the code PMX5MKII/9005/9006. Another example, a single-color DIVA XS system, made with a 'Pure White' (RAL 9010) cabinet and mechanical elements and a 'Pure White' (RAL 9010) acoustical fabric Airtex<sup>®</sup> covering the protection grid gets the code DIVAXS/9010/9010.

Please contact us if you want to order any specific color.

## HIGHLY RESISTANT FINISH (HRF)

---

Amadeus recently invested in a new painting area featuring new painting machines able to produce a high-resistance resin-based finish, making the speakers highly resistant to scratches, shocks and water projections.

This new optional finish, increasing the systems' durability as well as the degree of protection provided by enclosures against intrusion, dust, accidental contact, and water up to IP55 (EN 60 529) is now available available on-demand.

Please contact us if you want to order any specific finish.

## ACCESSORIES TO MEET YOUR NEEDS

---

Accessories are often the forgotten detail. They are, however, a vital component in a complex speaker setup.

To compliment our core product offering, we also provide an extensive range of accessories.

The selection of accessories includes a huge number of mounting and connecting accessories, available to accommodate any configuration of installation.

The key to our success is to remain flexible. We have a unique manufacturing programme which allows us to efficiently produce anything from small batches to an automated production process for large scale manufacturing.

Please contact us if you want to order any specific accessory.
